

Clareville Nursery & Garden Centre

2022 EDIBLE DELIGHTS LIST

Welcome to our 2022 Edible Delights List. As you will see, there is plenty to choose from with our vast range. If varieties that you seek are not on our list, please enquire, as we are happy to try to obtain specific varieties.

There are many good reasons to purchase your fruit trees from Clareville Nursery & Garden Centre.

- Our selection is extensive. With over 190 varieties there will be something for everybody
- We source our plants from leading growers that have a history of producing quality plants
- All our staff are experienced & have a passion for plants. Our fruit trees are handled, potted & sold by people who know plants
- Very competitive pricing. Our fruit tree prices compare favourably against other suppliers. Whilst we carry large stocks of more popular varieties, if there are specific varieties, you require we recommend pre-ordering to avoid disappointment.

This year there are some modest price increases, in both Pip & Stonefruit lines. This is a result of increased supplier pricing. Whilst we have other supplier options, we have preferred suppliers whose quality products justify this price point.

Please feel free to contact us with any enquiries or to place your order at;

ALMONDS

\$55.00 each unless otherwise noted

All in one - All-In-One produces heavy crops of soft-shell nuts with sweet, flavourful kernels. Frost hardy. Although Self-fertile will produce more of an abundance of crops if planted with another variety of Almond. **Unavailable 2022 – please pre-book for 2023**

Burbank - This almond is noted for it's lovely flavour with a medium sized nut and soft shell. Large crops ready for harvest late summer. Almonds blossom in late winter around about August and for this reason, it is good to plant them in a sheltered position where the blossom won't get damaged by strong winds or heavy frost. **\$59.95**

McCartney – A good cropping variety that produces sweet, flavoured nuts. Plants in a sunny, free draining position.

Mono Vale – Mono Vale produces hard-shell nuts with good flavour. Due to their strong flavour this variety can be used for Marzipan. A heavy cropper and good pollinator. Disease hardy variety. Vigorous grower. **Price to be confirmed**

Almond Self-Fertile - This variety is a self-pollinating almond, producing gorgeous blossoms in spring time. Produces heavy crops of soft-shelled almonds with a good, sweet flavour. Self-fertile and hardy.

APPLES

This selection of apples is on MM106 rootstock - semi-dwarfing stock (3-3.5m). This rootstock is vigorous, resistant to woolly aphid and gives moderate sized trees, which have good quality fruit early in the life of the tree. ***All \$49.95 each unless otherwise noted***

Braeburn - Crisp, firm & juicy with yellowish green skin that is broadly striped with red. Sweet flavour balanced with a moderate tartness for just a little zing. Self-fertile.

Cox's Orange - One of the finest apples ever grown. Greenish-yellow skin with Orange-red striping. Rich, aromatic nutty flavour makes this older variety still hugely popular. Suitable for cooking or eating. Self-fertile.

Apple Divine - Has a mild sweetness with moderate acidity & light cottony crisp flesh. Late summer picking. Best flavoured when refrigerated for up to 3 months. Black spot resistant. **Self-fertile. Price to be confirmed.**

Fuji – A Japanese variety with large fruit with a smooth red-shaded skin. The creamy white flesh is firm, juicy & sweet with a satisfying crunch when eaten fresh. Stores exceptionally well. Ripens from mid-Autumn onwards. **\$**

Gala – Crisp, crunchy white juicy flesh that is aromatic & tastes divine. Nice red blush to the yellow skin. Ripens in Summer around February.

Golden Delicious –The flesh is crisp & juicy with a sweet honey flavour. Lovely eaten fresh but can be cooked. Highly productive & ripen towards the end of Autumn.

Granny Smith - Everyone's favourite! This classic bright green apple with its tangy flavour & crisp white flesh is suitable for eating or cooking. Keeps well. Very productive.

Lady In Red – Discovered in a Hawke's Bay orchard this beautiful looking apple has bright red skin. Inside the. Inside the cream flesh has a lovely combination of sweet & tart flavours. Ripens around April. **Self-fertile \$59.95**

Monty's Surprise - A unique NZ apple with strong disease resistance & very large, crisp & juicy fruit that are full of flavour.

Pacific Rose - You'll love the taste of this high quality, fresh eating apple that was bred in NZ. Quite large Apples with rosy red skin and crunchy sweet flesh to delight the taste buds. Ripen around April. **\$59.95**

Red Delicious - Classic, heart shaped, red shiny fruit. The perfumed, sweet & crispy flesh invites you to take one big delicious bite after another. While delicious for eating straight off the tree 'Red Delicious' is a great for pies & puddings.

Royal Gala - One of NZ's most popular eating apple. Rosy red blushed skin. Creamy, fine textured flesh, crisp, sweet & juicy.

Splendor – Beautiful, large carmine red apple with creamy, very crisp flesh. Sweet tasting & very low acid. Ripens in Autumn & holds on the tree well.

Tropicana – Deep red skin & white flesh tinted red. The flavour of these delicious apple are distinctly tropical.

Ascolano – This Olive is popular for the large fruits that have a delicate mild taste. The Olives stay green rather than the usual black when ripe. The attractive grey/green foliage is slightly twisted. **Pollinators – Leccino, Frantoio. El Greco** - It has a nice compact form making a good choice for topiary work. Attractive grey green foliage & small white flowers followed by heavy crops of small fruit that have good oil content.

Frantoio - Frantoio produces quite small Olives that are very high in oil content. Highly ornamental as well as productive. Plant in a sunny well drained spot. **Self-fertile**

Leccino - A popular Olive that produces a strong spicy flavoured oil. Equally desirable as a highly ornamental evergreen tree with attractive grey-green foliage

Manzanillo – This Olive has large fruit that ripen in early autumn and are perfect for pickling. Quickly forms a nice specimen tree with attractive grey-green foliage. Happiest in the sun with protection from harsh wind. Evergreen. **Self-fertile**

Picual – Early producing olive. High yields, high oil content & ripens mid to late season. Performs well from cold to subtropical climates.

Verdale - An open and spreading form of olive tree that is also slightly weeping in nature. It produces medium sized, good quality olives.

PEACHES

This selection of Peaches are on peach rootstock & should grow to approximately 3-4 metres.

All \$55.00 each unless otherwise noted

Blackboy - A stunning peach with a dark wine coloured outer and inner. The rich, juicy, textured flesh is absolutely delicious. A firm favourite. Ideal for bottling.

Flatto – The first flat peach in NZ! It is a white fleshed variety with excellent flavour. Delicious when eat while still crunchy or equally tasty when left to soften slightly. The fruit has a very small stone. Grown as a commercial variety. **Price to be confirmed.**

Glo Haven - This tree produces large sized fruit with skin that is blushed red over yellow & described as "nearly fuzz-less". The freestone flesh is yellow, nice & sweet with a mild flavour. Plant in a well-drained sunny spot. \$

Golden Queen - NZ's favourite peach. The Golden Queen peach is firm, tasty with golden Yellow flesh. Great for bottling or eating straight from the tree. Crops well, ripens in late February/March. Cling-stone.

Paragon - 'Paragon' is a proven commercial & home garden variety that produces regular and reliable crops of extremely juicy Peaches that are ripe around February. The skin is deep yellow mottled with red when ripe and the yellow flesh is very sweet. Plant in a sunny well drained spot. Cling-stone.

Red Haven - An enduring favourite amongst horticulturists and home gardeners as it is such a "good doer". Firm, yellow fleshed medium to large size fruit with an excellent flavour. Bottles well. Freestone.

Springold - Springold is the first peach to hit the market with good fruit size. Left to ripen properly, this is the first summer fruit you may taste and is delicious. Medium sized, yellow flesh.

All \$55.00 each unless otherwise noted

Tasty Zee – An attractive, white-fleshed peach with excellent quality. Produces commercial grade peaches that are very sweet, firm & juicy. Freestone. Ripens quite late towards March.

Wiggins - Heritage Peach. Very large fruit with sweet and juicy, white, free-stone flesh. Ready to eat from December. Good cropper and shows resistance to disease. Plant in a sunny well drained spot.

Peaches Continued.....

DUAL GRAFTED PEACHES – two varieties grafted onto one tree \$65.00 each

Blackboy/Golden Queen - Blackboy - A stunning peach with a dark wine coloured outer and inner. The rich, juicy, textured flesh is absolutely delicious. A firm favourite. Ideal for bottling. **Golden Queen** - NZ's favourite peach. The Golden Queen peach is firm, tasty with golden yellow flesh. Great for bottling or eating straight from the tree. Crops well, ripens in late February/March. Cling-stone.

Blackboy/Red Haven - Blackboy - A stunning peach with a dark wine coloured outer and inner. The rich, juicy, textured flesh is absolutely delicious. A firm favourite. Ideal for bottling. **Red Haven** – The fruit is medium to large sized round fruit. The skin has a dark red blush on exposed areas over a yellow background. The flesh is yellow & it is a freestone variety. Is juicy with a very good flavour.

PEACHARINE

This is actually a Peach/Nectarine cross with the advantage of being 'fuzzless' and bringing you the best of both delicious fruits. Medium to large fruit with smooth skin. Sweet and juicy yellow flesh. Ripens towards the end of summer. Self-fertile. **\$55.00**

PEACHCOT

A cross between a peach and apricot - this delicious, smooth skinned golden fruit. The flesh is sweet and juicy with a firm texture. A regular cropping tree which is self-fertile. **\$55.00**

DWARF PEACHES - on a 70cm Standard

This is a selection of Peach trees are on a dwarf rootstock & should grow 2m-3m.

Plant in a sunny well-drained spot or perhaps a container.

All \$55.00 each unless otherwise noted

Bonanza – The fruit have yellow skin with a red blush & the flesh is a pale yellow. With pretty pink spring blossom & lush green foliage this tree is highly ornamental as well as productive.

Garden Lady - Large yellow-skinned fruit with sweet, juicy, yellow flesh, with red-flushed orange skin. Freestone.

Honey Babe – Showy pink blossom in Spring. The fruit has orange, juicy flesh with a sweet tangy flavour. Ripens in early Summer.

Pixzee – Earliest to ripen, throughout January. Firm yellow flesh with Red skin. Freestone.

PEARS

This selection of Pears are on a quince rootstock with an interstock.

They should grow to approximately 2.5m-3m All \$58.00 each unless otherwise noted

Belle de Juliet - This extremely juicy and deliciously sweet heritage pear ripens in late January. This pear is valued for its high yield of fruit and the fact that it is self-pollinating. Pale gold skin and white flesh that just melts in your mouth. Self-fertile.

Beurre Bosc - A large russeted pear with creamy coloured coarse textured flesh. Juicy & very sweet. Stores well. Ripens around February. **Pollinators - Doyenne du Comice, Packham's Triumph Taylors Gold \$**

Concorde – This pear is a unique pear variety that combines the best features of the Conference and Comice pears from which it is derived. Firm texture & vanilla-sweetness combine with very little browning when cut or sliced, resulting in an excellent all-purpose pear. Partially self-fertile. **Pollinators: Beurre Bosc, Doyenne du Comice**

Conference - NZ's most popular pear. Crops very well with delicious juicy fruit that are quite long & narrow in shape. The flesh is rich and aromatic with a slight pink tinge when ripe. Attractive, smooth khaki-green skin.

Nashi - - Beautiful Asian pear with bronzed round fruit with a mild flavour. The creamy flesh is low acid and therefore very sweet. Ripens around March. Nashi is the Japanese word for Pear.

Red Bartlett – A popular & highly ornamental Pear with aromatic melting flesh. This Pear has beautiful wine-purple skin turning brilliant scarlet when ripe. Great for dessert or bottling. Requires pollination. **Pollinators – Packham's Triumph, Winter Nelis & Nashi**

**CLAREVILLE NURSERY & GARDEN CENTRE,
GREAT VALUE, GREAT RANGE, GREAT QUALITY!**
