

# Clareville Nursery & Garden Centre 2020 EDIBLE DELIGHTS LIST

Welcome to our 2020 Edible Delights List. As you will see, there is plenty to choose from with our vast range. If varieties that you seek are not on our list, please enquire, as we are happy to try to obtain specific varieties.

There are many good reasons to purchase your fruit trees from Clareville Nursery & Garden Centre.

- Our selection is extensive. With over 190 varieties there will be something for everybody
- We source our plants from leading growers that have a history of producing quality plants
- All our staff are experienced & have a passion for plants. Our fruit trees are handled, potted & sold by people who know plants
- Very competitive pricing. Our fruit tree prices compare favourably against other suppliers.

Whilst we carry large stocks of more popular varieties, if there are specific varieties, you require we recommend pre-ordering to avoid disappointment.

This year there are some modest price increases, in both Pip & Stonefruit lines. This is a result of increased supplier pricing. Whilst we have other supplier options, we have preferred suppliers whose quality products justify this price point.

Please feel free to contact us with any enquiries or to place your order at;

Clareville Nursery & Garden Centre

**CLAREVILLE NURSERY & GARDEN CENTRE  
GREAT VALUE, GREAT RANGE, GREAT QUALITY!**

## ALMONDS

- All In One** - All-In-One produces heavy crops of soft-shell nuts with sweet, flavourful kernels. Frost hardy. Although Self-fertile will produce more of an abundance of crops if planted with another variety of Almond. **Price to be confirmed**
- Mono Vale** – Mono Vale produces hard-shell nuts with good flavour. Due to their strong flavour this variety can be used for Marzipan. A heavy cropper and good pollinator. Disease hardy variety. Vigorous grower. **Price to be confirmed**
- Almond Self-Fertile** - This variety is a self-pollinating almond, producing gorgeous blossoms in springtime. Produces heavy crops of soft-shelled almonds with a good, sweet flavour. Self-fertile and hardy. **Price to be confirmed**

## APPLES

*This selection of apples is on MM106 rootstock - semi-dwarfing stock (3-3.5m). This rootstock is vigorous, resistant to woolly aphid and gives moderate sized trees, which have good quality fruit early in the life of the tree.*

- Ballerina Polka** - This tree produces round, medium sized fruit with red blushed skin. The flesh is crisp and juicy with a very good flavour. This spur bearing variety ripens mid-season. Columnar tree habit, growing to 3-4m tall by 30cm wide. **Price to be confirmed**
- Ballerina Waltz** - Medium to large round-conical fruit with a solid red skin on areas exposed to the sun. Crisp and juicy with a slight tang. Suitable for fresh fruit, drying & cooking. Mid-season. Spur bearing. Columnar tree habit, growing to 3.5m tall by 30cm wide. **Price to be confirmed**
- Belle de Boskoop** - is a large, orange red, russeted heritage apple. It is very popular in Europe as a cooking and fresh eating apple. Apple is firm and crisp, with a full, tart flavour. It is very aromatic and gets sweeter in storage. Stores for 3-4 months or more. Forms an open, wide-spreading and weeping tree. Spur bearing, crops mid to late season variety. **Price to be confirmed**
- Braeburn** - 'Braeburn' has become a firm favourite in the Kiwi orchard. Crisp, firm & juicy with yellowish green skin that is broadly striped with red. Sweet flavour balanced with a moderate tartness for just a little zing. **Self-fertile. \$39.95**
- Bramley** - Is a heritage apple of medium to large size. The fruit is round and has a distinctive conical shape. It has a firm, tart flesh with a good flavour & is sweet with plenty of juice. Keeps very well. Tip & spur bearing. **\$39.95**
- Cox's Orange** - One of the finest apples ever grown. Greenish-yellow skin with Orange-red striping. Rich, aromatic nutty flavour makes this older variety still hugely popular. Suitable for cooking or eating. **Self-fertile. \$39.95**
- Fuji** - A Japanese variety with large fruit with a smooth red-shaded skin. The creamy white flesh is firm, juicy and sweet with a satisfying crunch when eaten fresh. Stores exceptionally well - for months if refrigerated. Ripens from mid-Autumn onwards. **\$39.95**
- Gala** - Crisp, crunchy, white juicy flesh that is aromatic and tastes divine. Nice red blush to the yellow skin. Ripe in summer around February. **Self-fertile. \$39.95**

CLAREVILLE NURSERY & GARDEN CENTRE  
GREAT VALUE, GREAT RANGE, GREAT QUALITY!

## **Apple Continued....**

**Golden Delicious** - This popular apple is very well named because it is indeed golden & very scrum delicious. The flesh is crisp & juicy with a sweet honey flavour. Lovely eaten fresh but can be cooked. Highly productive & ripe towards the end of Autumn.  
**\$39.95**

**Granny Smith** - Everyone's favourite! This classic bright green apple with its tangy flavour & crisp white flesh is suitable for eating or cooking. Keeps well.  
Very productive. **Self-fertile \$39.95**

**Lady in Red** - This tree bears fruit that is pink-red blushed with pure white flesh & is capable of producing fruit that meets the high-quality standards of PINK LADY® apples, one of the world's most popular varieties. Fruit from this 'Lady in Red' tree has a flavour balanced between tartness and sweetness, with a crisp texture & sensational aroma. **Price to be confirmed**

**Liberty - Heritage** - Widely accepted as tops in flavour of the early bearing apples - bred for disease resistance. Attractive red blushed apples with crisp, juicy flesh & well balanced between sweet and tart flavour. Flavour develops during storage.  
Heavy bearer. **Self-fertile From \$39.95**

**Monty's Surprise** - A unique NZ apple with strong disease resistance & very large, crisp & Juicy fruit that are full of flavour. The skin of this apple has a high flavonoid Count. It is definitely a healthy option for your lunch box! **Self-fertile \$39.95**

**Pacific Rose** - You'll love the taste of this high quality, fresh eating apple that was bred in NZ. Quite large Apples with rosy red skin and crunchy sweet flesh to delight the taste buds. Ripe around April. **Price to be confirmed**

**Peasgood Nonsuch** - An English heritage variety with huge, flat, highly coloured fruit with red stripes. Highly esteemed for culinary purposes. The flesh is firm, juicy & tart with the right blend of acid & sweet. When stewed the flesh breaks down to a 'froth'.  
**\$39.95**

**Priscilla** – Heritage - Medium in size. Red blush over yellow background. Crisp flesh. White to slightly greenish flesh. Good flavour & quality. Will store for up to 3 months.  
**\$39.95**

**Reinette du Canada** - Heritage Type - An apple from France that dates back to 1771. It ripens very late in the season and stores exceptionally well. The dull green skin is often russeted. The creamy white flesh is firm, juicy, with a spicy flavour. Excellent dessert apple. **\$39.95**

**Royal Gala** - One of NZ's most popular eating apple. Rosy red blushed skin. Creamy, fine textured flesh, crisp, sweet & juicy. **Self-fertile. \$39.95**

**Splendour** - Beautiful, large carmine red apple with creamy, very crisp flesh. Sweet tasting & very low acid. Ripens in autumn& holds on the tree well. **\$39.95**

## CIDER APPLES

**Kingston Black** - Heritage Apple. This is a must have if you like Cider. Valued for producing a slow-fermenting, full-bodied, quality 'hard' cider. The fruit are small, dark & maroon in colour with a 'bitter sharp' flavour. **\$39.95**

**Apple Mother In-law** - Popular for Cider making due to its sharp taste. Green-bronze skin with a red blush ripening around March-April. **\$39.95**

**Slack Ma girdle** - Heritage Apple. Medium sized flattish fruit with yellow-green skin with bright red streaks. The flesh is extremely sweet and tender and can be used for cooking fresh eating or cider blending. **\$39.95**

## DWARF APPLES

*This selection of Apples are grafted onto m27 rootstock – (dwarf rootstock) & grow to approximately 2m-3m.*

**Braeburn** - 'Braeburn' has become a firm favourite in the Kiwi orchard. Crisp, firm & juicy with yellowish green skin that is broadly striped with red. Sweet flavour balanced with a moderate tartness for just a little zing. **Self-fertile. \$39.95**

**Cox's Orange** - One of the finest apples ever grown. Greenish-yellow skin with orange-red striping. Rich, aromatic nutty flavour makes this older variety still hugely popular. Suitable for cooking or eating. **Self-fertile. \$39.95**

**Divine** - Divine® fruit has a mild sweetness with moderate acidity & light crisp flesh.

Late summer picking. Will keep in the fridge for up to 3 months. **Price to be confirmed**

**Gala** - Crisp, crunchy, white juicy flesh that is aromatic and tastes divine. Nice red blush to the yellow skin. Ripe in summer around February. **\$39.95**

**Granny Smith** - Everyone's favourite! This classic bright green apple with its tangy flavour & crisp white flesh is suitable for eating or cooking. Keeps well. **\$39.95**

**Initial** - Destined for the winner's podium! An exceptionally good eating, early season red Gala-type apple with high aroma, low acid and high sugar. Very productive, easy to grow & resistant to black spot disease. **Price to be confirmed** – **Pollinators** - **Gala, Peasgood Nonsuch, Ariane, Golden Delicious, Granny Smith, Priscilla, Red Delicious, Initial, Royal Gala, Divine®, Monty's Surprise**

**Liberty** - Heritage - Widely accepted as tops in flavour of the early bearing apples - bred for disease resistance. Attractive red blushed apples with crisp, juicy flesh & well balanced between sweet and tart flavour. Flavour develops during storage. Heavy bearer. **Price to be confirmed**

**Monty's Surprise** - A unique NZ apple with strong disease resistance & very large, crisp & Juicy fruit that are full of flavour. The skin of this apple has a high flavonoid Count. It is definitely a healthy option for your lunch box! **\$39.95**

**Red Delicious** - Classic, heart shaped, red shiny fruit. The perfumed, sweet & crispy flesh invites you to take one big delicious bite after another. While delicious for eating straight off the tree 'Red Delicious' is a great for pies and puddings. **\$39.95**

**Royal Gala** - One of NZ's most popular eating apple. Rosy red blushed skin. Creamy, fine textured flesh, crisp, sweet & juicy. **\$39.95**

## CRABAPPLES

**Gorgeous** - This Crabapple is aptly named, as it is absolutely gorgeous in Spring when white to soft pink single blooms smother the branches. Then followed by masses of shiny bright crimson 'apples' that hold well on the tree through to autumn. Ideal for making delicious jelly. **From \$42.00**

**Jack Humm** - The single white blossom in spring is followed by large shiny red 'apples' that stand out on the bare branches right through winter. **From \$42.00**

**Jelly King**- A tree with spectacular large orange-pink fruit that persist much longer than most large fruited crab apples. Strong white blossom covers this vigorous but, compact tree in Spring. Makes excellent pink jelly. **From \$42.00**

## APRICOTS

*These selections of Apricots are on Plum or Peach rootstock & should grow to approximately 3-4 metres.*

**Fitzroy** - Bred in Taranaki, consistent crops of medium sized golden fruit that ripen around February. Copes well in warmer climates. Self-fertile. **\$45.00**

**Garden Annie** - Garden Annie is an early season fruiting variety, with good sized bright yellow fruit that are firm and juicy as well as being semi-freestone. A highly ornamental tree that is semi-dwarf, so is well suited to home gardens especially in the warmer areas of the country. **\$45.00**

**Moorpark** - Soft, juicy, 'fuzz less' fruit of superb quality with a luscious flavour. Suitable for fresh eating straight off the tree but can also be bottled or dried. Likes a warm sunny position but is very cold tolerant. **Self-fertile. \$45.00**

**Royal Rosa** - Royal Rosa is a very early, freestone selection with firm tasty gold flesh, yellow skin with a red blush. A disease hardy, low chill selection recommended for home gardens throughout New Zealand. **Self-fertile. \$45.00**

**Tomcat** - A very large, almost peach-sized fruit with a strong red blush over orange skin. High quality freestone fruit with an intense apricot flavour. **Self-fertile. \$45.00**

**Trevatt** - Large, sweet, juicy, golden yellow fruit ripe late Jan/ early Feb. Eating & bottling. **Self-fertile Priced from \$45.00**

## **BERRYFRUIT**

### **BLACKBERRIES**

**Thornless** – Beautiful, dark berry fruit ripening over Summer. A strong growing thorn free cultivar. **From \$14.95**

### **BLUEBERRIES**

**Easily grown, delicious to eat and many health-giving benefits as well.**

**Partially self-fertile but pollination is assisted with the correct companion. Choose any two different varieties for pollination.**

**Best grown in a sunny aspect in moist well-drained soil. Priced from \$22.95**

**Blueberry Blast** - This is a medium sized fruit that is sweet & succulent to eat. Full of good vitamins & high in Vitamin C. This is a rabbit eye variety. Pollinate with another rabbit eye.

**Blueberry Blue Dawn** - This 'rabbit-eye' variety produces masses of large, tasty & delicious fruit. Generally, fruits from December through to February. Pollinate with another rabbit-eye.

**Blueberry Blue Magic** – This 'rabbit-eye' variety produces copious amounts of delicious medium sized fruit. Thinning of the fruit will encourage larger berries. Fruits December to February. Pollinate with another rabbit eye.

**Blueberry Powder Blue** – Rabbit-eye. - The sweet berries are of a good size & high quality & produced in generous quantities between January & March. Pollinate with another Rabbit-eye.

**Blueberry Tasty Blue** – Rabbit eye. Rounded deep blue juicy berries from December to February. Best grown in a sunny aspect in moist well drained soil. Pollinate with another rabbit-eye.

**Bluecrop – Northern Highbush** – An upright productive selection that is hardier than many varieties. Large light berries ripen early to mid-season. **Self-fertile.**

**Maru** – A proven heavy-cropping large dark berries. Upright growth habit. Harvest, Late Feb-mid April. Upright habit. May need bud thinning to prevent over-cropping. Pollinate with another Rabbit eye.

### **BOYSENBERRIES**

**Thornless** - Generally more trailing than blackberries with a sweeter taste & richer colour. Can be tamed by fence or frame. Huge fruit ripening at Christmas. Ideal fresh or for preserves.

**Priced from \$13.95**

## **ELDERBERRIES**

They are attractive & easy to grow. Ideal for the home gardener. Elderberries contain more phosphorus & potassium than any other temperate fruit crop. The fruit is also rich in vitamin C.

Ideal for use in wine, cordial & culinary use. **\$22.50**

## **GOOSEBERRIES**

**Invicta** - The 'Invicta' Gooseberry has a Royal Horticultural Society Award of Garden Merit, this tells you straight away it is worth growing. Heavy bearing, with large flavourful fruit that can be used for culinary purposes or eaten fresh when fully ripe.

**Peach Red Haven** - An enduring favourite amongst horticulturists & home gardeners as it is such a "good doer". Firm, yellow fleshed medium to large size fruit with an excellent flavour Freestone. **Nectarine Snow Queen** - Delicious creamy-white firm flesh with deep red skin. Great eating. Early, large and freestone. **Price to be confirmed**

## **OLIVES – Priced from \$17.95 upon availability**

**Ascolano** – An excellent quality table olive with a high flesh to stone ratio. The fruit is large & tender with a good oil content. **Pollinators – Leccino, Frantoio.**

**Frantoio** - Very versatile tree ideal for specimen planting, hedging. This is a tidy & compact-sized tree. With an early, heavy crop of medium-sized fruit. The oil from these olives has a peppery fresh-pressed taste and is great for using for dressings and dipping. They pickle well as an eating olive and are an all-round easy-to-grow variety. Very high in oil content.

**Koroneiki** - Excellent for hedges, screens, lining avenues and driveways. Cold hardy. Excellent street tree as no fruit without a pollinator. **Pollinator – Leccino**

**Leccino** –Superb Tuscan oil selection that performs well in most parts of New Zealand. Healthy and vigorous, and tolerant of the cold once established. A medium-sized olive used for both pickling and oil. Vigorous. Pollinate with Frantoio. Early ripening.

**Pollinator - Frantoio**

**Manzanillo** – High yields of medium sized fruit with an oil content of 12-15% & suitable for pickling.

**Mission** - A vigorous upright grower. Bears a heavy crop of smaller sized *Olives* which are best pickled. Grows well in the cooler regions. **Self-Fertile.**

**Picual** – Highly productive variety with good crops with a high oil content. Hardy & adaptable.

**Verdale** - An open and spreading form of *olive* tree that is also slightly weeping in nature. It produces medium sized, good quality *olives*. Its open branching creates an informal screen that allows filtered light through for around living areas and along boundaries.

## PEACHES

*This selection of Peaches are on peach rootstock & should grow to approximately 3-4 metres.*

- Blackboy** - A stunning peach with a dark wine coloured outer and inner. The rich, juicy, textured flesh is absolutely delicious. A firm favourite. Ideal for bottling. **\$45.00**
- Flatto Sweet Bonnet** - Produces large crops of sweet, tasty, yellow-fleshed fruit in early mid-February. The fruit weighs between 100-130g each. During spring, blossoms cover the branches. **Self-fertile. Price to be confirmed.**
- Glohaven** - This tree produces large sized fruit with skin that is blushed red over yellow & described as "nearly fuzz-less". The freestone flesh is yellow, nice & sweet with a mild flavour. Plant in a well-drained sunny spot. **\$45.00**
- Golden Queen** - NZ's favourite peach. The Golden Queen peach is firm, tasty with golden Yellow flesh. Great for bottling or eating straight from the tree. Crops well, ripens in late February/March. Clingstone. **\$45.00**
- Hiawatha** - An unusual Peach tree in that it has long narrow maroon leaves that are very striking. The usual pink blossom in spring followed by tasty, small, purple skinned peaches with orange flesh. **\$45.00**
- Red Haven** - An enduring favourite amongst horticulturists & home gardeners as it is such a "good doer". Firm, yellow fleshed medium to large size fruit with an excellent flavour Freestone. **\$45.00**
- Wiggins** - Heritage Peach. Very large fruit with sweet and juicy, white, free-stone flesh. Ready to eat from December. Good cropper. **\$45.00**
