## 2023 EDIBLE DELIGHTS LIST

Welcome to our 2023 Edible Delights List. As you will see, there is plenty to choose from with our vast range. If varieties that you seek are not on our list, please enquire, as we are happy to try to obtain specific varieties.

There are many good reasons to purchase your fruit trees from Clareville Nursery & Garden Centre.

- Our selection is extensive. With over 190 varieties there will be something for everybody - We source our plants from leading growers that have a history of producing quality plants - All our staff are experienced & have a passion for plants. Our fruit trees are handled, potted & sold by people who know plants - Very competitive pricing. Our fruit tree prices compare favourably against other suppliers. Whilst we carry large stocks of more popular varieties, if there are specific varieties, you require we recommend pre-ordering to avoid disappointment.

This year there are some modest price increases, in both Pip & Stonefruit lines. This is a result of increased supplier pricing. Whilst we have other supplier options, we have preferred suppliers whose quality products justify this price point.

Please feel free to contact us with any enquiries or to place your order at;

**Clareville Nursery & Garden Centre Ph. (06) 3798604**

**Place your orders via our contacts page:**

GREAT VALUE, GREAT RANGE, GREAT QUALITY!***

## ALMONDS

**Mono Vale** – Mono Vale produces hard-shell nuts with good flavour. Due to their strong flavour this variety can be used for Marzipan. A heavy cropper & good pollinator. Disease hardy variety. Vigorous grower. **Price to be confirmed**

**Self-Fertile** - This variety is a self-pollinating almond, producing gorgeous blossoms in spring time. Produces heavy crops of soft-shelled almonds with a good, sweet flavour. Self-fertile and hardy. **Price to be confirmed**

## APPLES

*This selection of apples is on MM106 rootstock - semi-dwarfing stock (3-3.5m). This rootstock is vigorous, resistant to woolly aphid*

*All \$55.00 each unless otherwise noted*

**Braeburn** - Crisp, firm & juicy with yellowish green skin that is broadly striped with red. Sweet flavour balanced with a moderate tartness for just a little zing. Self-fertile.

**Cox's Orange** - One of the finest apples ever grown. Greenish-yellow skin with Orange-red striping. Rich, aromatic nutty flavour makes this older variety still hugely popular. Suitable for cooking or eating. Self-fertile.

**Fuji** – A Japanese variety with large fruit with a smooth red-shaded skin. The creamy white flesh is firm, juicy & sweet with a satisfying crunch when eaten fresh. Stores exceptionally well. Ripens from mid-Autumn onwards. \$

**Gala** – Crisp, crunchy white juicy flesh that is aromatic & tastes divine. Nice red blush to the yellow skin. Ripens in Summer around February. Golden Delicious – The flesh is crisp & juicy with a sweet honey flavour. Lovely eaten fresh but can be cooked. Highly productive & ripen towards the end of Autumn.

**Golden Delicious** - The flesh is crisp & juicy with a sweet honey flavour. Lovely eaten fresh but can be cooked. Highly productive & ripen towards the end of Autumn.

**Granny Smith** - Everyone's favourite! This classic bright green apple with its tangy flavour & crisp white flesh is suitable for eating or cooking. Keeps well. Very productive.

**Lady In Red** – Discovered in a Hawke's Bay Orchard this beautiful looking apple has bright red skin. Inside the cream flesh has a lovely combination of sweet and tart flavours. Ripens around April.

**Monty's Surprise** - A unique NZ apple with strong disease resistance & very large, crisp & juicy fruit that are full of flavour.

**Pacific Rose** - You'll love the taste of this high quality, fresh eating apple that was bred in NZ. Quite large Apples with rosy red skin & crunchy sweet flesh to delight the taste buds. Ripen around April.

**Royal Gala** - One of NZ's most popular eating apples. Rosy red blushed skin. Creamy, fine textured flesh, crisp, sweet & juicy.

**Splendor** – Beautiful, large carmine red apple with creamy, very crisp flesh. Sweet tasting & very low acid. Ripens in Autumn & holds on the tree well. Tropicana – Deep red skin & white flesh tinted red. The flavour of these delicious apple is distinctly tropical.

### **DUAL GRAFTED APPLES - Two varieties on one tree from \$75.00 each**

**Braeburn/Royal Gala** - Crisp, firm & juicy with yellowish green skin that is broadly striped with red. Sweet flavour balanced with a moderate tartness for just a little zing. Royal Gala - One of NZ's most popular eating apples. Rosy red blushed skin. Creamy, fine textured flesh, crisp, sweet & juicy.

**Granny Smith/Red Delicious - Granny Smith** - Everyone's favourite! This classic bright green apple with its tangy flavour & crisp white flesh is suitable for eating or cooking. Keeps well. Very productive.

**Red Delicious** - Classic, heart shaped, red shiny fruit. The perfumed, sweet & crispy flesh invites you to take one big delicious bite after another. Can be eaten straight off the tree or is ideal for pies and puddings.

**Granny Smith/Royal Gala** - Granny Smith - Everyone's favourite! This classic bright green apple with its tangy flavour & crisp white flesh is suitable for eating or cooking. Royal Gala - One of NZ's most popular eating apples. Rosy red blushed skin. Creamy, fine textured flesh, crisp, sweet & juicy.

**CLAREVILLE NURSERY & GARDEN CENTRE,  
GREAT VALUE, GREAT RANGE, GREAT QUALITY!**

## **DWARF APPLES**

*This selection of Apples are on m27 rootstock – (dwarf rootstock) & grow to approx. 2m-3m.*

*\$55.00 each unless noted*

**Braeburn** - Crisp, firm & juicy with yellowish green skin that is broadly striped with red. Sweet flavour balanced with a moderate tartness for just a little zing.

**Cox's Orange** - Greenish-yellow skin with orange-red striping. Rich, aromatic nutty flavour makes this older variety still hugely popular. Suitable for cooking or eating.

**Granny Smith** - Everyone's favourite! This classic bright green apple with its tangy flavour & crisp white flesh is suitable for eating or cooking. Keeps well. Very productive.

## **APRICOTS**

***These selections of Apricots are on Plum or Peach rootstock & should grow to Approximately 3-4 metres. All priced at \$59.95 each unless noted.***

**Fitzroy** - Fitzroy - Bred in Taranaki, consistent crops of medium sized golden fruit that ripen around February. Copes well in warmer climates. Self-fertile.

**Garden Annie** – Is an early season fruiting variety, with good sized bright yellow fruit that are firm & juicy as well as being semi-freestone. A highly ornamental tree that is semi-dwarf.

**Moorpark** - Soft, juicy, 'fuzz less' fruit of superb quality with a luscious flavour. Suitable for fresh eating straight off the tree but can also be bottled or dried. Likes a warm sunny position but is very cold tolerant. **Self-fertile.**

**Royal Rosa** - Royal Rosa is a very early, freestone selection with firm tasty gold flesh, yellow skin with a red blush. A disease hardy, low chill selection recommended for home gardens throughout New Zealand. **Self-fertile.**

**Tomcat** - A very large, almost peach-sized fruit with a strong red blush over orange skin. High quality freestone fruit with an intense apricot flavour. Self-fertile.

**Trevatt** - Large, sweet, and juicy, this golden yellow fruit ripens mid to late in season. Perfect for eating as well as bottling, this variety is recommended for most areas. **Self-fertile.**

## **BLACKBERRIES**

**Black Satin** - Mid season bearer. Thornless. Vigorous grower that establishes itself quickly with heavy yields, excellent for home gardens. Semi-erect growth habit, but they require trellising or plant them along a fence. Very disease resistant.

## **BLUEBERRIES**

**Partially self-fertile but pollination is assisted with correct pollinator. Choose any two different varieties for pollination. Varieties will vary during the season. Priced from \$24.95**

**Blue Dawn** - This 'rabbit-eye' variety produces masses of large, tasty & delicious fruit. Generally, fruits from December through to February. Pollinate with another rabbit-eye.

**Blue Magic** – This 'rabbit-eye' variety produces copious amounts of delicious medium sized fruit. Thinning of the fruit will encourage larger berries. Fruits December to February.

**Blue Muffin** - A variety that produces heavy crops of medium sized fruit that you can harvest in and around December, then again in March and April.

**Powder Blue** - The sweet berries are of a good size & high quality & produced in generous quantities between January & March.

**Tasty Blue** - Rounded deep blue juicy berries from December to February

## **BOYSENBERRIES**

***Priced from \$21.00***

**Brulee** - A moderately-vigorous variety on mostly spineless canes. White flowers appear in early spring, followed by large firm, conical dark purple-black berries. Self-fertile. Ripens December/January.

**Mapua** - A mostly spineless commercial selection with outstandingly flavoured large berries.

**Starlight** - White flowers in early spring are followed by large firm, conical dark wine-red berries of excellent flavour. Moderately vigorous thornless canes. Self-fertile. Ripens from December to January with heavy yields under ideal conditions. Maturity is determined when full colour is reached and the fruit is easily removed.

**Thornless Jewel** – This plant produces rich dark red/black berries with a delightfully aromatic old fashioned boysenberry flavour.

## **ELDERBERRIES**

**Elderberry** They are attractive & easy to grow. Ideal for the home gardener. Elderberries contain more phosphorus & potassium than any other temperate fruit crop. **\$29.95**

## **GOOSEBERRY**

**Invicta** – Heavy bearing, with large flavourful fruit that can be used for culinary purposes or eating when fully ripe. **\$39.95**

**Pax** – Is a red dessert gooseberry. The fruit are large, red, round & one of the best gooseberries you will ever eat. **\$39.95**

## **RASPBERRIES**

**Priced from only \$20.95 – All are self-fertile**

**Lewis** - A highly productive raspberry plant that has few spines and produce large firm medium sized fruit. Harvest the berries from December to January. Plant in a sunny spot in the garden. Deciduous.

**Tulameen** - produces very large, glossy red, conical and firm fruit that is of an excellent flavour. This divine raspberry grows as a bramble on upright canes. A strong and productive plant.

## **CHEERRY TREES**

***This Selection of Cherry Trees are on a Colt Rootstock & should grow to approximately 4m.  
\$59.95 each***

**Compact Stella** – Sweet & productive. This tree bears plump, bold-red cherries that are delicious! Grow abundant crops of heart-shaped fruit! **Self-fertile.**

**Lapins** - Sweet Cherry. This heritage variety of Cherry is one of the largest and juiciest with firm dark red fruit that are sweet & delicious. Good resistance to skin splitting & a reliable producer. Ripens Mid-late season. **Self-fertile**

**Montmorency – Sour Cherry** - A sour cherry that ripens between Christmas & New Year. The fruit is used for cooking and is high in antioxidants. Great for espaliering.

**Rainier** - Sweet Cherry - A cross between Bing & Van cherry varieties the combination of these two red cherries produced a golden yellow cherry with a red blush & incredibly sweet flavour. Large white fleshed midseason cherry. Excellent eating. **Pollinator – Dawson**

**Summit** - Summit is an early to mid-season dark red cherry bred in Canada, ripening around Christmas. It is a very large flat heart-shaped fruit with excellent flavour. Has dark red skin, light red, juicy flesh.

**Tangshi** – Upright small rounded tree that is self-fertile & has crops of lovely red cherries that ripen in Summer. The cherries have red skin & yellow flesh and are mainly used for cooking purposes. Self-fertile.

## **CHESTNUTS**

**Castanea 1005** - Commercial fruiting variety. Large, red-brown nuts fall free of the burr. A heavy-cropper bearing nuts in early-autumn. Strong, upright-grower. Self-fertile. **Pre-sold Please pre-book for 2024**

***CLAREVILLE NURSERY & GARDEN CENTRE,  
GREAT VALUE, GREAT RANGE, GREAT QUALITY!***

## CITRUS

### GRAPEFRUIT – From \$39.95

**Cutler's Red** - has large, deep orange, sweet, juicy fruit with just a little zing. The rind is thick.

**Golden Special** - has large juicy seedless fruit. Ideal for breakfast fruit, juicing & also makes delicious Marmalade.

**Morrison Seedless** - The hardiest all-purpose citrus tree producing medium to large, round, thin skinned, moderately sweet, juicy fruit, maturing August. Holds well on tree. Vigorous, large & prolific bearer.

**Wheenee** - This Australian variety has large, good quality, pale yellow fruit. The fruit has thin skin & very juicy flesh with a mild flavour. More suited for juicing.

### LEMONS – From \$39.95

**Lemonade** – An interesting fast-growing Hybrid lemon which has medium sized pale-yellow fruit. Easy to peel, mild flavour. Excellent for Summer drinks.

**Lisbon** – One for the lemon connoisseur, deliciously juicy, fragrant fruit with a thick skin. Very productive & vigorous.

**Meyer** – NZ's most popular lemon & deservedly so. The clean, dark green foliage forms a medium sized plant with waxy white fragrant flowers, which appear in Spring, Summer & Autumn. The tree will produce tasty, juicy lemons.

**Villa Franca** - Thornless & a smaller tree than Lisbon. Prolific & bears a heavy crop.

**Yen Ben** – Profuse producer of large oval shaped fruit with a distinctive sharp acidic flavour. Very juicy & has few seeds. The skin is fragrant & firm.

### LIMES– From \$18.95

**Bearr's** - A citrus tree known for its fruit, ornamental foliage & fragrant flowers, 'Bearr's' is related to the Tahitian lime. It is neat & compact in habit & almost thornless tree. Its fruit are small, thin skinned, deep green-turning yellow with seedless, juicy tangy flesh.

**Kaffir** - Great for Thai cooking and have long been used for their leaves that are finely cut up & fruit for its zest, in Thai food. They add a distinctive flavour to any meal.

**Sublime** – Exciting Tahitian variety with lower seed content & prolific fruiting habit. Large, thin skinned juicy fruit.

**Tahitian** - The fruit are smooth & lime to yellow in colour and are high in Vitamin 'C.'

### MANDARINS– From \$39.95

**Afourer** – It develops a highly attractive deep orange-red colour & is easy to peel. It is a very flavoursome.

**Burgess Scarlet** –Medium sized, rich flavoured, aromatic fruit that is easy to peel. The fruit is mature from June - August. Quite vigorous in habit but nice & bushy.

**Clementine** – A popular early maturing variety that has small, sweet juicy fruit of good colour & flavour.

**Encore** - These Mandarins' fruit from Nov-Feb. The fruit are medium in size & easy to peel, sweet & juicy.

**Kiyomi** - A hybrid citrus fruit of mandarin & sweet orange. Fruit is large like an orange, thick skinned & easy to peel. Flesh is juicy & seedless. Satsuma type ripening August-September.

**Miho** - 'Miho' is very early ripening with fruit ready to eat from April/May. The easy peel, flat fruit has a mild sweet taste.

**Satsuma** - Is a popular, sweet, seedless, easy peel variety. Best picked as the fruit becomes puffy, when left on tree. Ideal for the lunchbox.

### ORANGES– From \$39.95

**Best Seedless** – A good quality NZ orange with sweet & juicy, seedless fruit. Ripens from September onwards.

**Chock full of Vitamin C. Blood Orange** - A natural pigment not usually present in citrus, change the colour of the flesh to a crimson-blood red colour. The fruits are small-medium sized & trees smaller.

**Carters Navel** - This navel orange has an excellent flavour & sweet juicy flesh with a fine texture, few seeds. Easy peel. Good vigorous upright habit. Evergreen.

**CLAREVILLE NURSERY & GARDEN CENTRE,  
GREAT VALUE, GREAT RANGE, GREAT QUALITY!**

Citrus Continued.....

### **Oranges**

**Harwood Late** - produces thin skinned, juicy oranges with an excellent flavour that ripen from Autumn onwards.

Good vigorous upright habit.

**Parent Navel** – This kiwi classic has a light orange skin; excellent flavour & its flesh is juicy sweet. While in flower its blossoms emit a gorgeous fragrance. Good vigorous upright habit.

**Seville** - Very old variety, very sour. Ideal for marmalades & preserves. July to September

### **CURRANTS**

**Priced from \$19.95**

**Laxton Tinker** - A consistent heavy cropper bearing fruit that are ready to harvest in mid-Summer and has good resistance to disease. Plant in full sun or partial shade where soils are suitably moist, fertile and free-draining.

Grows to approximately (1.5m x 1.2m)

**Red-** A smallish bush which can be easily squeezed into a small garden as a hedging border or as a standalone specimen.

### **FEIJOA'S**

*Varieties may vary during the season. If there is a particular variety that you are after – please inquire. Any two different varieties will pollinate each other - From \$36.00 each*

**Apollo** - Fruit are medium to large size with excellent flavour. Vigorous upright growth habit.

**Den's Choice** – An early season variety with medium to large, sweet flavoured fruit. Ready to harvest in April/May & abundance of crops when pollinated by another Feijoa.

**Golden Goose** - Large, smooth, king-sized fruit. Sweet, golden-yellow flesh. Fruits from late-autumn to early winter. Has an extra-long shelf-life for the fruit. Rounded, bushy grower. Partially self-fertile, but better crops when planted with any other feijoa variety. Beautiful red flowers from late-spring to mid-summer.

**Pounamu** - One of the best feijoas for taste, with a rich, smooth aromatic flavour. Early cropper with dark-green skin, almost the colour of greenstone. Needs another variety as a pollinator. Ripens April/May.

**Unique** - Large crops of medium-sized fruit with soft, smooth & juicy flesh. Crops from a younger age than other Feijoa cultivars. Early season, ripens April.

**White Goose** - This large, vigorous growing Feijoa produces a heavy crop of large with semi-smooth light green skin around April-May.

### **FIGS**

**\$49.95 each**

**Brown Turkey** - This fruiting fig is highly ornamental as well as productive. Large glossy green foliage & a vigorous growth habit with large fruit that are purplish brown with pink flesh & a rich flavour. A favourite fig for jam & preserving.

**Brunoro** – A highly ornamental tree that produces delicious fruit twice throughout the year in January & April. The fruit is purple-black with a succulent red flesh

**French Sugar** – This tree produces medium sized fruit with dark green skin & sweet, pale pink flesh. Heavy cropper. Late season variety.

**Madeline** - Is a fantastic variety which will produce two crops a year in the right conditions. To ensure the first crop is successful, you need to protect the fruits as they form and grow over winter. The fruits are pear-shaped with juicy pink flesh that is encased in brown skin; the fruits can be enjoyed fresh or made into a jam or preserve. Once established, this tree will be a good and reliable cropper.

**Mrs. Williams** – This fig is a very attractive tree that has the bonus of two crops of large fruit per year in January & April. The fruit is dark brown with red flesh & delicious.

**CLAREVILLE NURSERY & GARDEN CENTRE,  
GREAT VALUE, GREAT RANGE, GREAT QUALITY!**

## GRAPES

*Feed every 4 months with either Citrus food or Acid food if planted in the ground.*

*From \$29.95 each*

**Black Buffalo** - A high quality Table Grape with reddish-black fruit with an attractive bloom. The flesh is green, tender and juicy with a hint of spice. Regular generous cropper that shows good disease resistance. Ripe around Feb-March.

**Kyoho** – A Grape that is huge in size and very, very sweet. Black-purple in colour, ripens in early Autumn.

**Moore's Diamond** – The skin & flesh are greenish white & have a tangy flavour. The grapes ripen around March. Shows good disease resistance.

**Niagara** – Has a low seed content. A popular variety that produces sweet juicy grapes with a slight tang. A healthy vigorous grower bearing large clusters of green gold in colour.

**Robinson** - A nice table grape with deep purple to black bunches of grapes which are produced regularly & reliably. Ripe around March-April.

## HAZELNUTS

*All are \$49.95 unless otherwise noted*

**Barcelona** – A well flavoured nut. Hazelnuts are highly valued for their delicious taste plus the fact they are high in protein & unsaturated fat. “Barcelona” is a vigorous grower that produces large nuts in great quantities. Requires a pollinator. **Pollinate with Merville de Bolwillier**

**Merville de Bolwillier** – Not only is this a great looking deciduous tree that is extremely hardy it will also provide you with delicious, nutritious Hazelnuts in January/February. The large round nuts are packed with Vitamin E & antioxidants. Produces large nuts. Used mainly as a pollinator!

**Tonda Romano** – Produces good crops of small-medium sized nuts with excellent flavour. **Pollinators: Barcelona, Merville de Bolwillier**

**Whiteheart** – New Zealand's most popular hazelnut grown mainly for processing. Good crops of small round nuts. **Pollinators include Alexandra, Merville de Bolwillier.**

## NECTARINES

*This selection of Nectarines are on Peach rootstock should grow to 3-4 metres.*

*(All Nectarines are self-fertile) \$59.95 each*

**Fantasia** - A popular, large, yellow freestone that's firm when ripe, but oh, so juicy. The taste is sweet, but tangy, & very rich. Nectarines are large and brightly coloured. Good for fresh eating, canning and pies. Ripens in late August.

**Goldmine** – An enduring favourite, this variety has fruit that ripen in mid-February. The medium sized fruit have mainly red over green skin. The flesh is white, freestone, juicy & aromatic. Good dessert & fresh eating variety. Vigorous & highly productive tree.

**Newboy** - Large, red skinned fruit with white juicy flesh that has an exquisite flavour. Produces well with crops ripening Jan-Feb. Freestone. Plant in a sunny well drained spot.

**Redgold** - Is one of the most widely planted nectarines in the country. It produces a large, yellow, freestone fruit that has a beautiful red blushed skin that covers a firm, juicy flesh. During the spring the tree dazzles with stunning pink flowers. Price to be confirmed

**Snow Queen** – Ideal for mild climate. This self-fertile, low chill white Nectarine has the most satisfying sweet flavour of any variety. Attractive pink Spring flowers produce firm, red-tinged fruit with sweet white flesh. Dark green foliage has wonderful Autumn colour.

**Tasty Gold** - It has large freestone fruit with a mainly red skin. The yellow flesh is has an excellent texture & taste. The fruit will hold well on the tree after ripening for up to 14 days. Heavy, regular cropper. Self-fertile.

**CLAREVILLE NURSERY & GARDEN CENTRE,  
GREAT VALUE, GREAT RANGE, GREAT QUALITY!**

## **DWARF NECTARINE TREES (ON A 50cm STANDARD)**

*Plant in a sunny well-drained spot or perhaps a container. \$59.95 each*

**Flavourzee** – Mid-season yellow fleshed fruit of good size & eating quality. This tree Forms a compact habit. Self-fertile. – on a 50cm Standard

**Garden Delight** – You will be delighted with this delicious dwarf Nectarine that is small in size but not on taste. Large, yellow, juicy freestone fruit ripen about March/April. Pretty pink blossom in spring. **On 70cm Standard**

**Nectar Babe** – Nectar Babe is a great choice for smaller gardens. The fruit is an attractive bright red with flavourful, sweet juicy freestone flesh. Needs Flavourzee for Pollination. **On 70cm Standard**

## **OLIVES - From \$17.95 each**

**Ascolano** – This Olive is popular for the large fruits that have a delicate mild taste. The Olives stay green rather than the usual black when ripe. The attractive grey/green foliage is slightly twisted. Pollinators – Leccino, Frantoio.

**El Greco** - It has a nice compact form making a good choice for topiary work. Attractive grey green foliage & small white flowers followed by heavy crops of small fruit that have good oil content.

**Frantoio** - Frantoio produces quite small Olives that are very high in oil content. Highly ornamental as well as productive. Plant in a sunny well drained spot. Self-fertile

**Leccino** - A popular Olive that produces a strong spicy flavoured oil. Equally desirable as a highly ornamental evergreen tree with attractive grey-green foliage.

**Manzanillo** – This Olive has large fruit that ripen in early autumn and are perfect for pickling. Quickly forms a nice specimen tree with attractive grey-green foliage. Happiest in the sun with protection from harsh wind.

Evergreen. Self-fertile

**Pical** – Early producing olive. High yields, high oil content & ripens mid to late season. Performs well from cold to subtropical climate

## **PEACHES**

*This selection of Peaches are on peach rootstock & should grow to approximately 3-4 metres \$59.95 each*

**Blackboy** - A stunning peach with a dark wine coloured outer and inner. The rich, juicy, textured flesh is absolutely delicious. A firm favourite. Ideal for bottling.

**Glo Haven** - This tree produces large sized fruit with skin that is blushed red over yellow & described as "nearly fuzz-less". The freestone flesh is yellow, nice & sweet with a mild flavour. Plant in a well-drained sunny spot. \$

**Golden Queen** - NZ's favourite peach. The Golden Queen peach is firm, tasty with golden yellow flesh. Great for bottling or eating straight from the tree. Crops well, ripens in late February/March. Cling-stone.

**Hiawatha** – Attractive Peach Tree with deep-purple leaves in Spring fading to purple green in Summer & pink blossoms. Purple-skinned fruit with orange flesh & good flavour. Pink blossoms from late- Winter to late-Spring. Excellent fresh eating, mid-summer ripening. **Self-fertile.**

**Red Haven** - Firm, yellow fleshed medium to large size fruit with an excellent flavour. Bottles well. Freestone.

**Springold** – Good sized fruit. Left to ripen properly, this is the first summer fruit you may taste and is delicious. Medium sized, yellow flesh.

**Wiggins** - Heritage Peach. Very large fruit with sweet & juicy, white, free-stone flesh. Ready to eat from December. Good cropper and shows resistance to disease. Plant in a sunny well drained spot.

**Yumyeong** - Very delicious, large, white crunchy-fleshed peach with a distinctly tropical flavour. Late season.

**CLAREVILLE NURSERY & GARDEN CENTRE,  
GREAT VALUE, GREAT RANGE, GREAT QUALITY!**

GREAT VALUE, GREAT RANGE, GREAT QUALITY!**

## PLUMS

*This selection of Plums are on myrobalan rootstock.*

*They should grow to approximately 3-4 metres All \$59.95*

**Billington/Billington's Early** - A small meaty plum with dark red skin and flesh that crops heavily around Xmas time. When cooked it has no bitterness and retains its bright red colour. **Pollinators - Black Doris, Omega**

**Black Doris** - An excellent all-purpose plum with purple black skin & delicious, sweet dark red juicy flesh. Ripens around February. **Pollinators – Billington, Elephant Heart, Santa Rosa**

**Coe's Golden Drop**- This plum has large rich, juicy, golden fruit with a delicious flavour. **Pollinators – Damson, Greengage, Reine Claude du Bavay, Plum Prune Stanley**

**Damson** - A highly productive variety of small tart oval fruit with blue skin & yellow flesh. Best eaten when fully ripe or used for bottling. European variety. **Self-fertile.**

**Doris** - Is a medium sized plum with red skin & yellow flesh. The flesh is sweet & juicy with very good flavour. **Pollinator: Santa Rosa**

**Elephant Heart** - A delicious large plum with heart shaped fruit that is coloured a deep purple-red both inside & out. The free-stone fruit ripens about February. Will freeze or bottle well. **Pollinator – Omega, Santa Rosa, Sultan**

**Greengage** – A versatile little plum with greenish yellow fruit that tastes like pure nectar. Excellent straight off the tree but also good for desserts & jams. Partially self-fertile. Needs a pollinator. **Pollinator – Coe's Golden Drop**

**Hawera** - Originated from a chance seedling found on the roadside near, you guessed it, Hawera. Heavy cropper, freestone, ripens January. **Self-fertile.**

**Luisa** - A top NZ plum that produces bumper crops of distinctive oval fruit that have a yellow skin blushed red. The firm flesh is also yellow & divinely sweet & juice. Partially self-fertile. **Pollinator Billington, Omega**

**Omega** - Produces high quality fruit with red speckled skin & juicy red flesh. **Pollinators – Billington, Elephant Heart, Santa Rosa.**

**Reine Claude de Bavay** - Self-fertile European greengage, which crops heavily. Richly flavoured fruit. Culinary plum par excellence. Ripens in March. **Self-Fertile**

**Santa Rosa** - Firm sweet juicy fruit that is highly aromatic. The skin is crimson to purple & the flesh is yellow blushed pink. **Pollinators - Black Doris, Elephant Heart, Omega**

**Satsuma** - Maybe the most well-known of all blood plums, the Satsuma plum is a mid-season plum, largest in size, rounded dark red, firm juicy spicy flesh. A good bearer, useful for preserving & bottling or as a dessert plum. **Pollinator Santa Rosa**

## PLUMCOT

**Plum Spring Satin** - a hybrid between a Plum and an Apricot. White spring blossom followed by beautiful deep plum coloured fruit. You get the tangy plum flavour and purple skin with the orange melting flesh and sweetness and scent of apricot. Good disease resistance. **Self-fertile \$59.95**

## POMEGRANATE

**Wonderful** - The best-known fruiting pomegranate variety produces large deep purple-red fruit with deep crimson juicy flesh, which is very high in antioxidants. Good for juicing & eating fresh. The tree is vigorous and productive, with stunning flowers. **From \$21.00**

## PRUNE

**Stanley** - A large spreading tree, fruiting young and cropping heavily. Fruit are large & oblong with a beautiful purple/blue skin and green/yellow flesh that's juicy and sweet. They grow best in a sunny, sheltered position in free draining soil. Ripens February/March. **Self-fertile \$59.95**

**CLAREVILLE NURSERY & GARDEN CENTRE,  
GREAT VALUE, GREAT RANGE, GREAT QUALITY!**

**QUINCE - All \$59.95 each unless otherwise noted**

**Smyrna** – This popular selection is from Turkey & fruits at a young age. Very large, pear shaped, golden yellow aromatic fruits with mild & tender flesh of excellent quality. The fruit keeps very well & can be used for cider, jams & preserves. Moderate sized tree with unusually large leaves. **Self-fertile.**

**Taihape** – This Quince was developed from an old tree growing in the garden at the Brown Sugar Café in Taihape. The aromatic fruit are a lovely lemon shade & highly ornamental. Use for making cider, jams & preserves.

**Self-fertile.**

**WALNUTS**

**Meyric Seedling – Grown from seed.** Good High yielding main crop. A more vigorous tree, with good all-round nuts that are easy to crack & store well. Will crop in 3-5 years. **Price to be confirmed**
